About me

I am a Salesforce developer with experience in computer repair and customer service. My passion for learning, problem-solving, and collaborating with other professionals drives me continuously. I am an adaptable individual who makes decisions with initiative and confidence. Additionally, I possess lateral thinking skills that enable me to find creative and innovative solutions. My goal is to continue growing professionally and add value to the companies I work with.

Projects

- **CloudConsulting, Salesforce Implementation**
  April - May 2023
  Developed a project management application that unified scattered data into a single platform. Applied agile methodologies (SCRUM).
  Worked for 4 weeks, 9 hours per day.
  For more details, please refer to my **Github**.
  Collaborated with a team of three developers.
- **E-learning Platform, Pair Programming**
  April 2023
  Developed a user-friendly and adaptable e-learning platform for both students and instructors.
  Worked for 2 weeks, 8 hours per day.
  For more details, please refer to my **Github**.
  Collaborated with a partner.

Experience

Infinitech, Esquel — It Technician
June 2017 - August 2021
I was responsible for the repair and maintenance of notebooks, PCs, and video game consoles. Assisted customers in diagnosing and resolving hardware and software issues. Provided excellent customer service by addressing inquiries promptly and effectively resolving technical problems. Collaborated with the sales team to provide product knowledge and technical support during the sales process. Strong customer service and communication skills. Extensive knowledge of hardware and software troubleshooting.
